A Mid-Summer's Greeting...

The Midsummer Festival is the greatest summer Holiday in Finland. The Finns celebrate it from the heart, let themselves loose and welcome in the summer.

Cities have official celebrations and festivities, but most Finns gather with family and friends at their summer cottages for a sauna, banquets and the midnight bonfire.

Here at Hackman, many of you have visited Villa Hackman, in Sorsakoski, during your stay with us for the 2008 Dealer Summit. So you are aware of how inviting the countryside can be.

Should our partners wish to come to Finland, sometime in the future, to discover Mid Summer activities, we welcome you to the North!

We appreciate all of the hard work of our partners around the Globe, who have made this an exceptional spring.

Warm regards to everyone,
Pekka

New Nova2 Serving Line

The Nova serving line is being replaced with the Nova2 serving line. The appearance and measures are compatible with the old serving line. In the new Nova2 serving line, the following features have been updated:

- The aluminium frame (walls and doors) are replaced by high pressure laminate covered chipboards, with the thickness 18mm
- The new tone of the birch laminate is slightly darker (the earlier tone is not manufactured anymore) and has the code K7024. The other standard colours remain the same oak F2510, dark grey F7912 and dark red/brown F7966
- The bottom construction of serving line is made of durable veneer
- The doors of the cupboards are equipped with sound reducing and adjustable hinges

Accessories for Nova2 serving line:

- water filling,
- cover plate 200x200mm for the slot into the bottom board of the cupboard
- basin platform for the bottom of the basin,
- cord channel in the bottom of the serving line
- Nova-plus uppershelves

Trade Show News

January – June 2011

Hackman kettles have been getting some air-miles over the past 6 months, with successful shows in Ireland, Dubai, Tokyo, Hamburg, Almaty and Lyon.

BGL Rieber of the UK
FMI Corporation of Japan
Metos France
Stierlen in Germany
Nordien-System I.C.E Middle East in Dubai
Vermi in Kazakhstan and
Metos Sweden

have all done exceptional jobs of keeping the Hackman message of Cook Mix Chill in the limelight of productive kitchen solutions.

Pasi, Rain and Greg all were on hand with the Hackman kettles and Ardox S tabletop on the Ali Group stand in Dubai, during Gulfood. 27th Feb-2nd Mar. Our first visit to the exhibition which has grown enormously in the past decade, into one of the top 3 shows for international customers and dealers.

Please see below for photos and details.

Icelandic School Chef visit to Finland

Braving the volcanic cloud of Northern Europe, this team of wary travellers descended on Helsinki - *To go back to School!*

17 School Chefs from Reykjavik visited the Viikki Elementary School and Porvoo Middle School at the end of May. *The last day of school, in Finland. Even so, more than 1000 students were served lunch made with Hackman Kettles and equipment.

Finland is one of the leading models of School Meals in the world, and the first country to provide a free hot meal for all students, throughout the lifetime of their scholastic career.

You can see this Kitchen in action on the HackmanKettles channel on YouTube. Just search it!

If your Team would like to bring customers from your areas, up to Finland, to see these sites in action, give Greg or Pasi a call.

Fastus is our Partner in Iceland, Rafn would be happy to discuss more about their market and program. Drop us a line, if you do not already have Fastus' contact details, or look online.

Hackman Certification

Hackman is pleased to announce that new certifications have been issued for ISO 14001 and ISO 9001.

Should your companies require copies of these for your offices, please drop us a note.

**We welcome you and your team
to visit us at Host in Milan**

21st October – 25th October 2011.

We are showing on stand H40 in pavillon 7B
